## YQL Lift Gas Spring Catalogue (YQL 支撑气弹簧规格表)

| 产品型号     | 打开长度 (L)            | 行程 (S)     | 缸筒 (D)          | 活塞杆 (d)            | 最小伸展力 (N)    |
|----------|---------------------|------------|-----------------|--------------------|--------------|
| MODE     | EXTENDED LENGTH /MM | STROKE /MM | CYLINDER DIA/MM | PISTON ROD DIA /MM | MIN FORCE /N |
| YQL001   | 113                 | 30         | 12              | 4                  | 35           |
| YQL002   | 160                 | 50         | 12              | 4                  | 50           |
| YQL003   | 219                 | 80         | 12              | 6                  | 40           |
| YQL004   | 160                 | 40         | 15              | 6                  | 50           |
| YQL004-1 | 195                 | 65         | 15              | 6                  | 100          |
| YQL005   | 200                 | 60         | 15              | 6                  | 60           |
| YQL006   | 220                 | 65         | 15              | 6                  | 75           |
| YQL007   | 245                 | 70         | 15              | 6                  | 190          |
| YQL008   | 250                 | 90         | 15              | 6                  | 50           |
| YQL009   | 250                 | 90         | 15              | 6                  | 70           |
| YQL010   | 250                 | 90         | 15              | 6                  | 80           |
| YQL011   | 250                 | 85         | 15              | 6                  | 100          |
| YQL012   | 280                 | 100        | 15              | 6                  | 90           |
| YQL013   | 330                 | 120        | 15              | 6                  | 40           |
| YQL014   | 380                 | 140        | 15              | 6                  | 100          |
| YQL015   | 247                 | 80         | 18              | 8                  | 250          |
| YQL016   | 280                 | 100        | 18              | 8                  | 150/250      |
| YQL017   | 300                 | 100        | 18              | 8                  | 200          |
| YQL017-1 | 315                 | 115        | 18              | 8                  | 150          |
| YQL017-2 | 320                 | 115        | 18              | 8                  | 150          |
| YQL018   | 350                 | 130        | 18              | 8                  | 150          |
| YQL019   | 380                 | 140        | 18              | 8                  | 70           |
| YQL020   | 400                 | 150        | 18              | 8                  | 150          |
| YQL021   | 435                 | 170        | 18              | 8                  | 130          |
| YQL022   | 450                 | 180        | 18              | 8                  | 340          |
| YQL023   | 510                 | 210        | 18              | 8                  | 130/200      |
| YQL024   | 550                 | 220        | 18              | 8                  | 300          |
| YQL025   | 700                 | 290        | 18              | 8                  | 150/350      |
| YQL026   | 200                 | 40         | 22              | 10                 | 500          |

|        |      |     |    |    |      |
|--------|------|-----|----|----|------|
| YQL027 | 310  | 110 | 22 | 10 | 400  |
| YQL028 | 350  | 130 | 22 | 10 | 200  |
| YQL029 | 380  | 140 | 22 | 10 | 180  |

| YQL037 | 640  | 260 | 28 | 14 | 1100 |
| YQL038 | 1000 | 305 | 28 | 14 | 1500 |

支撑系列气弹簧参数请参考(Please referance the lift gas spring parameters range)

| 直径DIA | 压力可选择范围 FORCE RANGE |
|-------|---------------------|
| 12*4  | 10N-100N            |
| 15*6  | 10N-300N            |
| 18*8  | 50N-700N            |
| 22*10 | 100N-1500N          |
| 25*12 | 100N-1400N          |
| 28*14 | 100N-3000N          |
| 28*16 | 100N-3000N          |
| 40*20 | 300N-4000N          |

**Note:**above are a portion of specifications,please choose what suitable connector,the size and force what we can produce according to the customer's need.
